

SANDWICH PANEL HONICELL

Sandwich panel Honicell

SANDWICH PANEL HONICELL is a super light sandwich panel with a structure of a lightweight paper honeycomb core and water-proof bonded marine plywood on each side. The plywood as well as the Honicell can vary in thickness and weight.

SANDWICH PANELS HONICELL have excellent construction properties.
The panels are made in standard sizes as well as special structures.

Our SANDWICH PANELS HONICELL are used in motor- and sailing yachts, busses and coaches, houses, offices, theatres and furniture.

Structure Honicell:

Core 35 KG/m³

11 mm	1,5 - 8 - 1,5	app. 1,80 KG/m ²
