

SANDWICH PANEL PP

Sandwich panel PP

SANDWICH PANEL PP is a super light sandwich panel with a structure of a lightweight polypropylene honeycomb core and waterproof bonded marine plywood on each side. The plywood as well as the honeycomb can vary in thickness and weight.

SANDWICH PANELS PP have excellent construction properties.
The panels are made in standard sizes as well as special structures.

SANDWICH PANELS PP are used in motor and sailing yachts, buses and coaches, houses, offices, theatres and furniture.
